

**New  
Animal  
Footbath  
Solution!**

**FootLocker-G<sup>®</sup>**  
PATENT APPLIED

**Meet EPA standards before  
the EPA meets you!**

FootLocker-G is specifically designed to provide a biodegradable and environmentally friendly footbath as an alternative to footbaths laden with carcinogenic formaldehyde or illegal heavy metals such as copper and zinc. FootLocker-G can withstand the heavy soil and urine loads associated with dairy footbaths. Its unique formula allows it to be used safely.

## FootLocker-G Benefits:

- More Cost Effective Than Copper Sulfate
- Meets EPA Standards & Provides Crop Nutrients.
- Helps Reduce Incidents of Hairy Hoof Warts.
- For More Info Contact Matrix Nutrition - **1 (866) 431-2247**
